Presentation by Dr. Lawrence Singer on proposed use of 2461 Wisconsin Avenue

Lawrence Singer, DMD, will discuss plans for repurposing the vacant building on the corner of Wisconsin and Calvert (aka, the union building) into a medical facility focused on dental and related surgery and reconstruction. He is interested in how the community feels about this and what other purposes parts of the space could be used for that would benefit the community. He would need support for the required zoning variance. Dr. Singer is Assistant Clinical Professor of Surgery, George Washington University and Director, TMJ and Sleep Apnea Clinics of the Greater Washington Area.
